ZHONGYI DRIVES THE FUTURE

BànlǚTires

Tianjin Zhongyi Electric Vehicle Co.,Ltd.

ABOUT US

Tianjin Zhongyi Electric Vehicle Co.,Ltd. is located in Tianjin, a large comprehensive port city in northern China. The convenient transportation provides a unique geographic advantage for the sales of our electric vehicles to international market. Over years ,we have grown to be a leading electric cars' manufacturer in China, a high-tech company that integrates R&D, producing and selling for electric vehicle with a production base area of 18,000 square meters. We are dedicated to produce the top quality electric sightseeing bus, electric golf carts, electric classic cars, electric patrol cars, electric trucks, electric fire trucks, fuel sightseeing buses and various modified custom made models to you with the competitive price and first class after sales service.

Our cars have been used as designated vehicles for Olympic venues and summer Davos forums, and also served the 13th National Games and the 3rd China Green Expo. Presently our vehicles have been exported to the United States, Italy, Poland, Netherlands, Switzerland, France, South Africa, Saudi Arabia, Egypt,UAE, Singapore, Maldives, Vietnam, Bangladesh, Azerbaijan and other countries and regions.

As a production-oriented enterprise that meets the development direction of intelligent manufacturing and new energy industry, our company has passed the special equipment production license, ISO9001 certification, ISO14001 certification, SGS certification, BV certification, CE certification, and was named Tianjin Science and Technology Enterprise, Tianjin High-tech Enterprises and Nation-Level High-Tech Enterprises. Cooperation with Tianjin University, we have explored unmanned driving technology which has been put into the market initially, and Zhongyi products will move toward a higher scientific level.

With novel appearance, superior performance, reliable quality, ours carts became the advanced specialized off-road vehicle at home and abroad. Furthermore, good traction, high load capacity and climbing ability, convenient, low-carbon and environmentally friendly,make our vehicles achieved a complete success on pollution-free, low-noise, low-cost operation.

Zhongyi takes " professional, concentrated and dedicated R&D in electric vehicles" as our duty, regards " meet the every needs of customers" as our principle, makes "honest operating, excellent quality, supreme service" as our business concepts. To make benefits both for distributors and final customer. To create value for society. To contribute to global economy.
